أصدقاء فلسطين الاسكتلنديون

AT THE HEART of the conflict in the Gulf is the need to find a just settlement for the Palestinians.

The position of the Palestinians has been continually and deliberately misrepresented in the Western press and media.

The facts — 1½ million Palestinian refugees in the West Bank and Gaza have lived under brutal occupation for more than twenty years.

Murder, torture, gassing, deportations, curfews and other human rights abuses have all been condemned by the United Nations but the West has chosen not to act, but instead has armed and financed the Israeli occupation.

Since 4th August 1990 the Palestine Liberation Organisation has consistently called for an Iraqi withdrawal from Kuwait and for international law to be applied and upheld throughout the region.

Since the start of the war the civilian Palestinian population of the West Bank and Gaza have been placed under virtual around the clock curfew and journalists have been banned from reporting conditions there, wholly contrary to international law.

Come to our evening and find out why **Scottish** writers oppose the war.

INTERNATIONAL FORUM ON ASIA

The International Forum on Asia (IFA) has been recently established by individuals concerned with the implications of recent traumatic events in the continent of Asia. The rapid growth of nationalist violence and horror of communal carnage throughout India; Beijing's Tiananmen massacre of students and workers; the possible return to power of Pol Pot's Khmer Rouge regime; the mass brutalities inflicted by the Burmese military dictatorship without concern for human life are but a few examples of the debilitating crisis confronted by post-colonial societies in Asia. Although the denial of human rights and civil liberties remains fundamentally a concern for workers and peoples, the issues affecting this vast continent have wider economic, political and social consequences.

There is the perennial problem of dictatorial rule in South Asia - in Bangladesh, Sri Lanka, Pakistan etc. - and the constant and rapid rise of communalism in India, which is dismantling the politics of secularism - have all raised numerous problematic questions facing the Indian Sub Continent. For example the continuing issue of the Mandal Commission brought an end to the rule of V.P. Singh last year. The Punjab crisis and the murder of Mrs. Gandhi also show the strength of religious fundamentalism.

These awesome and sometimes frightening developments in this post-colonial region demand a public response. In recognition of this need to create a discourse on Asia, IFA has decided to launch a month long programme of activities in the U.K.

* Achin Vanaik, a prominent Indian political analyst and an activist has been invited from India by IFA to address public meetings and seminars on the current crisis facing the Indian Sub Continent. His first book *'The Painful Transition - Bourgeois Democracy in India'* has recently been published and has already been praised as a seminal text by academics and activists alike.

The national speaking tour will begin in Scotland in April and will move south stopping at some of the major cities and colleges and universities, culminating in a major weekend conference in London on 11th and 12th May, 1991. The theme of the conference will be 'South Asia - The Crisis and the Struggle for Fundamental Social Change'. Class, caste, communalism, nationalism; nuclear disarmament and ecology; the rise of the women's movement and its demands; the current economic and political situation; the role of Japanese intervention in South Asia will be some of the issues raised at this conference.

If you would like more information about the planned speaking tour, the conference; if you would like to organise a meeting in your area or at an educational institution and would like Achin Vanaik to speak, then please contact us.

IFA needs to raise money to pay for Achin Vanaik's fares from India, to produce leaflets and literature to publicise the speaking tour and the conference. If you can assist by making a financial contribution towards the costs, it will be greatly appreciated. Please make cheques payable to International Forum on Asia.
